

Dr Dietrich Klinghardt M.D., Ph.D., in cooperation with Pleomorphic Products SANUM Inc., Present

Autonomic Response Testing (ART I)

Phoenix, April 12-14, 2002

For physicians, dentists and all other health care practitioners

Learn a medical muscle testing system grounded in solid science. It is today probably the fastest and least invasive way to accurately detect food allergies, geopathic and biophysical stress, interference fields, stressed organs and structures, emotional blocks, heavy metal toxicity, dental problems, environmental toxicity and more.

ART allows the practitioner to select the correct and best-tolerated remedy for whatever the situation requires.

ART is an easy-to-learn, machine-free, hands-on- only approach.

In this three-day intensive, you will learn how to use muscle-testing, arm-length reflex testing and manual palpation as the most natural and accurate biofeedback instruments. This enables the practitioner to elicit and interpret stress signals from the patient's body. This hands-on course is equally beneficial for medical doctors, osteopaths, naturopaths, chiropractors, dentists, psychologists, and all other health practitioners. ART I is a further development of Neurokinesiology, developed by D. Klinghardt, M.D., Ph.D. and L. Williams ND, DC over 10 years ago. It also applies new findings from neurobiology, resonance physics, and psychology. Many of the most respected leaders in complimentary and alternative medicine worldwide are using ART today as their most effective and precise screening tool.

Day 1

- The 5 levels of healing
- The autonomic nervous system's (ANS) role in the regulation of the ground system
- Muscle strength and the autonomic regulation of the muscle spindle
- Central regulation of the ANS
- Autonomic arousal and muscle tone
- Heart Rate Variability (HRV) and thermography to objectify the ART exam.
- The standard neurological exam: upper and lower extremity, and cranial nerves
- The standard orthopedic exam (neck, low back, and major joints)
- The ANS exam: Arm length testing, muscle testing, VAS (vascular autonomic signal), and palpation
- Blocked regulation — when nothing works: biochemical, autonomic and mental causes - the 7 causative factors
- Practice, practice, practice and demonstrations

Day 2

- Induction phenomena between practitioner and client (transference and counter transference)
- Neurogenic switching: a common roadblock to healing. The role of scars, dental problems and psychological reversal
- The ART body scan: a muscle biofeedback test and extension of the physical exam
- The use of the Enderlein and Heel remedies to balance the system naturally
- How to test for vitamins, minerals and other nutritional supplements
- Chronic neurotoxin mediated illness: the diagnostic steps and treatment options
- Heavy metal toxicity: what metal, where, which detox agent? Detox protocol
- Practice, practice, practice — and demonstrations

Day 3: Practical applications of ART

- Making the correct diagnosis: which medical tests to confirm a suspected diagnosis? The value and beauty of conventional medicine
- Food allergies: quick and easy scan
- Geopathic stress: an important co-factor in cancer. Is it the underground water line, the electric wiring in the house or the near-by cell-phone tower?
- ART in dentistry: incompatible material, infection or toxicity? How to check for occlusal problems. The foundations of biological dentistry
- ART in internal medicine, OB/Gyn, ENT, herbal medicine, orthomolecular medicine, homeopathy, psychotherapy, osteopathy, surgery, and acupuncture etc
- ART and darkfield microscopy: an ideal marriage of technologies
- Demonstrations on course participants

Date: April 12-14

Time: Friday, 1_6 p.m., 7:30_10 p.m., Saturday 9 a.m._6 p.m.,
Sunday 8:30 a.m._1 p.m.

Cost: \$600* physician; \$380* spouse/assistant/student

**All registrations postmarked by March 12 will receive a discount:*

\$550 physician; \$350 spouse/assistant/student

Location: Pleomorphic Products SANUM Inc.

5170 W. Phelps Rd Glendale, AZ 85306 (Phoenix)

Accommodations: Please contact Pleomorphic at 602-439-7977 for a list of hotels or visit AANT@neuraltherapy.com

Registration: Fax Registration form 425-453-7015 or call 425-462-1777

Other Seminars dates listed below:

I am registering for the following seminar(s):	Physician 1st ^t time attending	Spouse/assistant Repeatattendance
Neural Therapy A	🍏 \$600.00	🍏 \$400.00
Neural Therapy B June 21-39	🍏 \$600.00	🍏 \$400.00
Autonomic Response Testing (ART I)	🍏 \$600.00	🍏 \$400.00
Advanced A.R.T (ART II) July 26-28	🍏 \$600.00	🍏 \$400.00
Psycho-Neurobiology (APN I) May 24-26	🍏 \$600.00	🍏 \$400.00
Adv. Psycho-Neurobiology (APN II) Sept. 27-29	🍏 \$600.00	🍏 \$400.00
Healing Retreat October 1-6	🍏 to be announced	🍏
Conference on Applied Neurobiology Dec. 6-8	🍏 \$600.00	🍏 \$400.00
Systemic Family Therapy (New York): August 12-16		

Total Amount: _____ (A deposit of one half the course fee reserves your space, balance due at door)

Payment Enclosed by _____ Check _____ Money Order _____ Credit card

Credit card number _____

Expiration date _____

Name on card _____
