## Chiropractic

(Pronounced Ki-ro-prack-tik)

The New Method of Analyzing the Symptoms and Eliminating the Physical Cause of Disease

NO DRUGS      **NATURE'S OWN WAY**      NO SURGERY

Chiropractic is based upon knowledge of the structure and function of the human body, especially that of the brain, vertebral column, spinal cord and the nerves emanating therefrom. Pressure on the nerves is the cause of disease. The 31 pairs of spinal nerves leading from the spine supply all the organs of the body. If there is a subluxation of the spine, as shown in the cut, there will be pain and lack of function in the tissues supplied by the nerve. Both acute and chronic cases yield readily to Chiropractic. You would never have aches or pains or experience sick days if your nerves were free to act and the only way these nerves can be released from deadly pressure is by unique hand adjustment. Try the Palmer way. B. J. Palmer, D. C., Ph. C., is the most successful Chiropractor of today. Since his father, D. D. Palmer, discovered the new science he has been its foremost developer and is at the head of the Palmer School of Chiropractic, Davenport, Iowa, (Chiropractic Fountain Head), the leading institution of Chiropractic learning in the world. It has no equals. We are ready to prove what Chiropractic can do for you, whether you have acute or chronic troubles. If your life is worth anything, your health is worth a few minutes investigation of this science. It's a pleasure to tell you about it.

# CHIROPRACTIC

## Why Chiropractors Specialize Upon The Spine

(The Human Backbone)

The Spine is the Chiropractor's special study.

The properly trained Chiropractor is, in the truest sense of the word A Spine Specialist.

No other Health Science in existence pretends to give this vitally important part of the body the careful and conscientious consideration which is bestowed upon it by The Chiropractor.

Modern Research has confirmed the importance of the Spinal Column as a decided factor in all matters pertaining to Health.

Careful and conscientious study of the subject by intelligent men thruout two decades, has confirmed the theory beyond a reasonable doubt that as a causative factor in relation to Health and Disease, the Spinal Cord and nerves control the supply of vital energy passing from the brain to individual cells in every part of the body. Actual experience only confirmed to a still greater extent the logic of this theory.

The Science of Chiropractic has finally attained a stage of progress in development and practice where it is being investigated, studied and adopted for exclusive practice by influential members of other Health modes, many of whom yet mistakenly condemn the Chiropractic Idea which their more progressive and less bigoted brethren in limited numbers accept, practice as a profession and urge upon their patients in search of a Harmless and Helpful Health Mode.

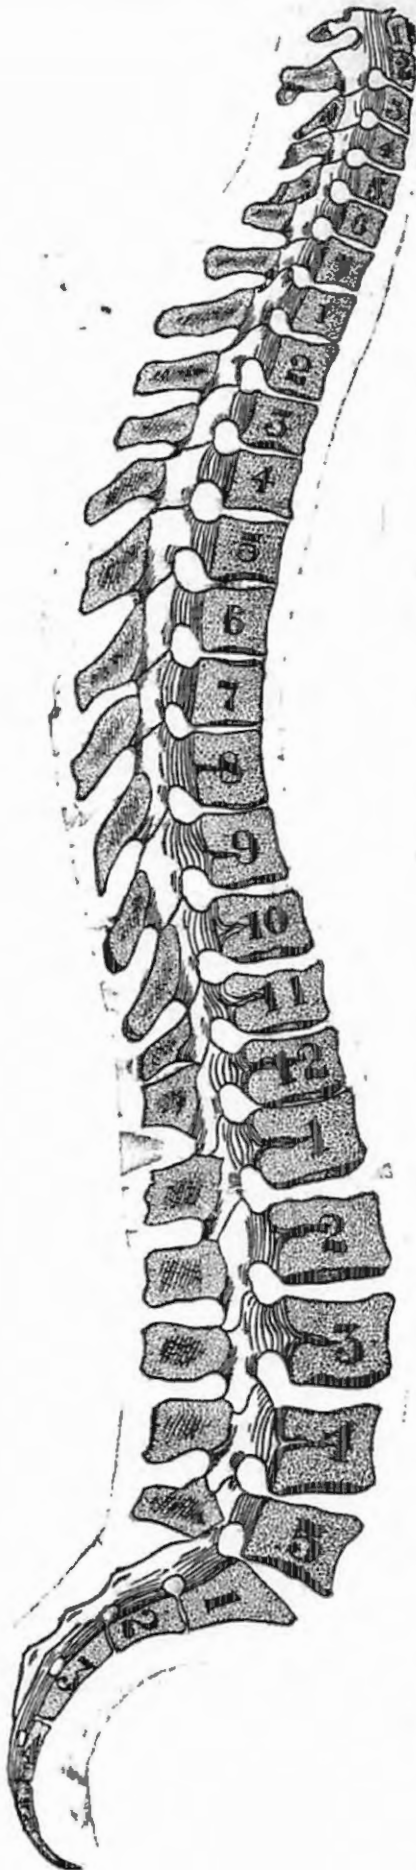

The development of Chiropractic is one of the really great achievements of modern times. When you pause to consider its wonderful growth in spite of tremendous opposition, it is impossible to arrive at any other conclusion than that this great Health Science Chiropractic is destined to become the One Great Factor in the solution of our Health Problems.

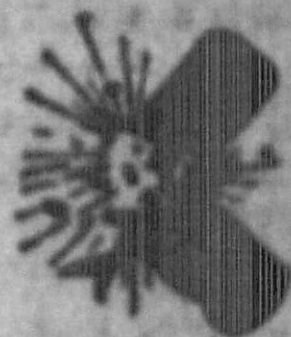

## What Is Chiropractic?

CHIROPRACTIC is a scientific method of adjusting the cause of Disease without Drugs or instruments, based on a correct knowledge of anatomy and especially the nervous system. The CHIROPRACTIC idea is that the cause of Disease is in the person afflicted and the adjustment in correcting the wrong that is producing it. The function of every organ in the body is controlled by mental impulses from the brain which transmits thru the nerves. Any impingement of these nerves interfering with the transmission of impulses results in an abnormal function called DISEASE.

## Why You Should Take Adjustments

1. Because CHIROPRACTIC never fails to find the exact cause of your Disease.
2. Because CHIROPRACTIC will remove the cause of your Disease.
3. Because CHIROPRACTIC is the greatest factor in the scientific prevention of Disease.
4. Because CHIROPRACTIC has restored many cases similar to your own.
5. Because what CHIROPRACTIC is doing and has done for others, it can and will do for you.

You enjoy life as long as your body is healthy and vigorous. This means careful attention to the spine and the nerve centers there. Chiropractic adjustments relieve defects and build you up.

As taught by the Palmer School of Chiropractic--  
Chiropractic Fountain Head

D. D. Palmer  
Discoverer of  
Chiropractic

B. J. Palmer  
Developer of  
Chiropractic

**Historical** In 1896 D. D. Palmer discovered the basic principle of Chiropractic. Its crude practice followed until 1903, at which time his son, B. J. Palmer, D. C., Ph. C., began to formulate the discovery into a Science, Art and Philosophy, and has since developed it into a well defined non-therapeutic health system which accounts for locates and adjusts the CAUSE of "disease." Ten thousand Chiropractors are now scattered over the world and more than a million persons daily take Chiropractic adjustments. The Palmer School of Chiropractic (Chiropractic Fountain Head, Davenport, Iowa), has a daily clinic of hundreds of patients and a fast growing student enrollment of 1,000 persons in actual attendance of classes.

## CHIROPRACTIC (KI-RO-PRAC-TIK)

Is the only Science, Philosophy and Art that has been thoroughly tested and proved that disease is caused by the interruption of mental impulses as they pass through the nerves, at the intervertebral foramina wherever the vertebrae, SPINAL BONES, are not in perfect alignment with each other. Pain and disease are warnings of spinal subluxations or irregularities. Throw off an electric switch and you shut off the electric current—subluxate a spinal bone and you pinch the nerve and shut off the life current which passes from the brain through the spinal column to the parts affected.

## FACTS and FIGURES

The "Flu" flurry began about October 1st. Its end was definitely in night December 25th, 1918. Since the last named date, medical and chiropractic statistics have been compiled covering between those dates. They are as follows:

Number of "Regular" Physicians . . . . .	50	Number of Cases Under Medical Care, 4,953	Medical Deaths . . . . .	274
Number of Davenport Chiropractors (including students) . . . . .	150	Number of Cases Under Chiropractic Adjustment . . . . .	Chiropractic Deaths . . . . .	1
				1,633

This is Pungent  
and Positive  
proof that-----

# CHIROPRACTORS CAN CURE THE "FLU"

### CONVINCING CONCLUSIONS

When you read the above, you wonder about this boasted education of physicians; how much they know; how much power they want to control people with. Not being satisfied with being useless in the face of the "Flu" they try to drive Chiropractors into the same useless educational channels, claiming that we can't do anything until we know everything they were taught; that we can't be competent Chiropractors until we have been taught the THEORY and PRACTICE of MEDICINE. That man is best educated who is most useful.

Over 400,000 people in the U. S. have died of "Flu" under medical care; this in spite of the fact that they have practically had military control of cities with their bans on business, people compelled to wear masks, quarantines on homes, vaccines, etc., etc.

At the Davenport rate of one death to 18 cases (which statisticians admit is very low) this would mean 7,200,000 people were sick in the U. S.

At the Chiropractic ratio of one death to 886 "Flu" cases, adjusted by Chiropractors, it means they could have attended 35,440,000 of people before they would have reached the same national death rate of 400,000.

If 7,200,000 people in the U. S. had "Flu"; and, Chiropractors could have adjusted these 7,200,000 people; and, the Chiropractic death rate is 1 to 886; then only 8,352 should have died, not 400,000.

### CONVINCING CONCLUSIONS, Continued

The reports are from 865 Chiropractors, 17 times as many as the 50 physicians of Davenport, Iowa, who had a death list of 274 cases, which is almost 7 times as many as the 365 Chiropractors.

The reports further show 35,314 cases with a death rate of 41 cases as compared with the physicians' death list of 274 with 4,953 cases. We have to our credit 17 times as many practitioners; 7 times as many cases with the M.D.'s having 46 1/2 times as many deaths in proportion.

Upon the same basis, the Chiropractors would be entitled to 17 times as many cases, or 1,642,101, inasmuch as the Davenport medical ratio is one death in 18 cases; in order to reach their death rate of 274 cases.

In the light of these positive, provable figures, let us ask:

Should "regular" medical men be given MORE power, or be shorn of some they already have?

Should Chiropractors be given GREATER LIBERTY to decrease the death rate and increase the living rate?

HOW DO FIGURES PROVE THE ANSWERS?

What we have done to the "FLU" we can do to the after affects of the "FLU." Hundreds of cases of this kind have been adjusted by

## Chiropractic Knowledge

CHIROPRACTIC is the knowledge not theory or belief of philosophy of cause of disease; the science of knowing how and the art of ability to adjust it. The human brain is where life currents are concentrated. The spinal cord and nerves are the purveyor of this mental force. If brain absorbs, spinal cord conveys, nerves transmit, and tissues, organs and viscera receive this life current, **HEALTH** is the product. Obstruct the transmission of current and disease is the product! Body plus life equals health. Body minus life equals death. Disease is the abnormal fluctuation between these two qualities caused by varying degrees of pressure upon nerves, interfering with transmission. Miss Perry, Chiropractor, knows why, where and how to remove the pressure and permit currents to continue transmission for the purpose of reconstructing disease to health. **HEALTH** is the restoration of currents; not the stimulation or diminution of how little does exist. Stop taking drugs, they are unnecessary. Avoid the knife, it is useless in 95 percent of cases. If sick, no matter what or where your ailment, mild or severe, investigate. I can prove that Chiropractic is right and applicable to your case.

# Chiropractic is Not a Fad

It makes no claims to be a panacea for all the ills of mankind.

But it IS a curative science that goes to the CAUSE of dis-ease, and by removing the cause, makes you well.

This is not a wild unsupported statement. It is a fact that is attested to by thousands right here in Omaha—among them many of your own friends.

Statistics show that 85% of all chronic cases, and 95% of all acute cases yield to Chiropractic.

Why not investigate it for yourself. Ask about it. Consult a Chiropractor. The principle is so logical and sound and the results achieved so undeniable, that your own common sense will be your best guide.

# Chiropractic Adjustments

*Remove the Cause*

## NATURE CURES

RESULT PERFECT HEALTH. NO FAILURES

1. Slight subluxations at this point will cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.

2. A slight subluxation of a vertebra in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, goitre, nervous prostration, la grippe, dizziness, bleeding from nose, disorder of gums, catarrh, etc.

3. The arrow head marked No. 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, felons, pain between the shoulder blades, rheumatism of the arms and shoulders, hay fever, writers' cramp, etc.

4. A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, etc.

5. Stomach and liver troubles, enlargement of the spleen, pleurisy and a score of other troubles, so-called, are caused by subluxations in this part of the spine, sometimes so light as to remain unnoticed by others except the trained Chiropractor.

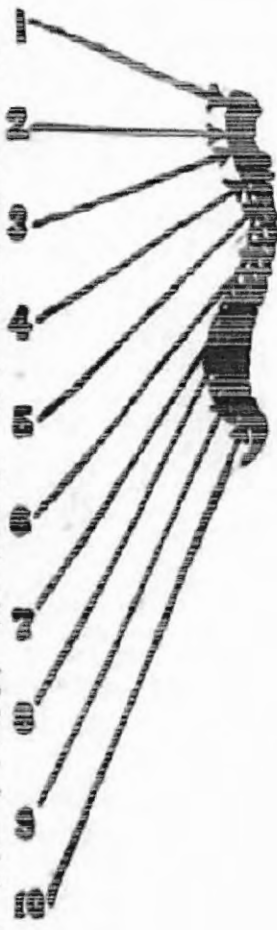

6. Here we find the cause of so-called gall stones, dyspepsia of upper bowels, fevers, shingles, hiccough, worms, etc.

7. Bright's disease, diabetes, floating kidney, skin disease, boils, eruptions and other diseases, so-called, are caused by nerves being pinched in the spinal openings at this point.

8. Regulations of such troubles as so-called appendicitis, peritonitis, lumbago, etc., follow Chiropractic adjustments at this point.

9. Why have so-called constipation, rectal troubles, sciatica, etc., when Chiropractic adjustments at this part of the spine will remove the cause?

10. A slight slippage of one or both innominate bones will likewise produce so-called sciatica, together with many "diseases" of pelvis and lower extremities.

# Are You Sick or in Pain Today?

**Your Spine is the Cause. The Spine Dominates the Whole Body. It is the Barometer of Health. Throw One Segment (Vertebra) Out of Line and Sickness Must Result.**

Just as sure as the sun is to rise in the east each morning is the fact that you with a subluxated (out of line) vertebra will be sick.

**THERE IS ABSOLUTELY NO USE OF ATTEMPTING TO SIDESTEP THE MATTER.** No use of procrastinating.

**IF YOU ARE SICK OR IN PAIN TODAY THE SUBLUXATION IN YOUR SPINE IS THE CAUSE.**

No other explanation—no other qualification. Disease can only come as a result of abnormal spine conditions. You may not have been conscious even at the time when the subluxation occurred—a sudden jar—over exercise—accident, fall, any number of things might have been the cause. It may have occurred yesterday or years ago and only made itself manifest by pain today.

**THE EXPERT CHIROPRACTOR ALONE CAN REMOVE THE CAUSE.** A FEW adjustments NOW will allow Nature to give you perfect Health.

The testimony of hundreds is your safeguard—the experience of those of the past few days would interest you. **THERE IS PLENTY OF HOPE FOR YOU.**

The wall of a building out of plumb is unsafe, it may fall—it is weak. Just so with the out-of-plumb spine. Crush the cartilage between the vertebrae thus pinching the nerves and shutting off the brain impulses (life currents) to the various organs of the body—disease must result.

**IS THERE NEED TO SUFFER? NO!  
CAN I GET WELL? YES!!!**

My Chiropractic adjustments remove the subluxations of the spine—get back in the proper position the "subluxated" vertebrae and restore again the normal continuous uninterrupted flow of life currents through the spinal cord from the brain. Like a great river with many branches or feeders running to it is the spinal cord and its thirty-one pairs of spinal nerves passing through the spinal boxes to the various organs and parts of the body. If you were watering the lawn and a child stepped on the hose restricting the flow of water you certainly would remove the cause. Your nerves need to be free from pressure in order to be normal.

Chiropractic adjustments remove nerve pressure and nature will restore you to perfect health.

**Hundreds of People Suffer Needlessly. Are You One of Them?**

**WARNING!**—Parents should be justice to their children have their spines analyzed, especially so if the child has had a fall. The subluxation may not trouble seriously for years but as a means of prevention and real good **HEALTH AND LIFE!**—later.

Do not confuse Chiropractic with drugs, surgery, gymnastics or any other mode or practice of healing. It is the only science, philosophy and art that has been thoroughly tested and proved that disease is caused by nerve pressure on the organs where the nerve energies between the vertebrae (spinal boxes). If your spine may not be perfectly and of flow to the eye or even to the touch of your limbs paralyzed, but remember he is not a Chiropractor. The Chiropractor is an expert and detects instantly the subluxations even through sight.

Definitely and restore? This point. If an spine is subluxated—how can medicine replace the spinal boxes?
