Enzyme Formulations, Inc., Introduces

CHIRO-ZYME™

Subluxation-based Nutritional Supplements developed exclusively for chiropractors.

Developed by Dr. Howard F. Loomis, Chiro-Zyme allows chiropractors to be as specific with their nutrition as they are with their adjustments.

Dr. Loomis has made nutritional assessments part of his chiropractic practice for more than 25 years. Using clinical applications and studies of nutritional supplements, he developed the specific formulations in the Chiro-Zyme line.

Noted physician and researcher Dr. Edward Howell first advanced the revolutionary theory of the role plant enzymes play in nutrition. Dr. Loomis credits his association with Dr. Howell as the inspiration for his own research into the role those enzymes play in the field of health maintenance.

Dr. Loomis pioneered *pHBS*, the concept of blending plant enzymes with herbs, vitamins and minerals to enhance nutritional effectiveness. The application of these theories, combined with clinical practice, led to the development of Chiro-Zyme, the subluxation-based nutrition supplement for chiropractors.

Chiro-Zyme is intended for use in conjunction with a complete nutritional evaluation that includes case history, chiropractic examination and laboratory tests as indicated.

C1 to C3 Sym ParaSympathetic Support Formula

PARASYMPATHETIC SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish those tissues of the body stressed by sympathetic irritation and subluxations of the upper cervical spine.

INGREDIENTS: Each capsule contains Chickweed herb, Echinacea purpurea root, Chamomile flowers, Dandelion root & leaf, Catalase, Amylase, Lipase, Chicory root, Protease, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.

Available in 90 and 180 capsules.

C2 to L5 IVD Musculoskeletal Support Formula

MUSCULOSKELETAL SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish bone and connective tissue by providing protein, minerals, and vitamin C.

INGREDIENTS: Each capsule contains Nettle leaf, Amylase, Prickly Ash bark, Rose Hips, Marshmallow root, Lipase, Protease, and Cellulase.

DIRECTIONS: Three or four capsules between meals or as condition suggests.

Available in 90 and 180 capsules

T1 to T2 Opt Eye & Lacrimal Support Formula

EYE & LACRIMAL SUPPORT FORMULA is a unique blend of vitamins, herbs, and minerals with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the eyes and lacrimal glands stressed by subluxations of the upper thoracic and cervical spine

INGREDIENTS: Each capsule contains Acerola cherries and Rose Hips, Bilberry leaf, Calcium Lactate, Amylase, Cellulase, Lipase, and Protease.

DIRECTIONS: Two capsules after meals, between meals, or as conditions suggests.

Available in 90 and 180 capsules

T1 to T3 Nsl Nasopharynx Support Formula

NASOPHARYNX SUPPORT FORMULA is a unique blend of vitamins and herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the mucous membranes of the head stressed by subluxations of the upper thoracic and cervical spine

INGREDIENTS: Each capsule contains Citrus Bioflavanoids, Carrot powder, Fenugreek seed, Odorless Garlic, Lipase, Pau D'Arco inner bark, Rose Hips, Catalase, Protease, Amylase, Grape seed extract, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as conditions suggests.
Available in 90 and 180 capsules.

T1 to T2 SvG Salivary Gland Support Formula

SALIVARY GLAND SUPPORT FORMULA is a unique blend of herbs and vitamins with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish those tissues of the salivary glands stressed by subluxations of the upper thoracic and cervical spine.

INGREDIENTS: Each capsule contains Amylase, Manioc root, Citrus Bioflavanoids, Wheat Germ, Peppermint leaf, Rose Hips, Carbohydrase, Lipase, Acerola extract, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

T1 to L3 Skn Integument Support Formula

INTEGUMENT SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the subdermal tissues stressed by subluxations of the thoracic and lumbar spine.

INGREDIENTS: Each capsule contains Fumitory herb, Burdock root, Lipase, Oregon Grape root, Figwort, Protease, Amylase, and Cellulase.

DIRECTIONS: Two capsules after or between meals, or as condition suggests.
Available in 90 and 180 capsules.

ORDER 1-800-614-4400

C8 to T1 Thy Thyroid Support Formula

THYROID SUPPORT FORMULA is a unique blend of minerals and herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the thyroid gland stressed by subluxations of the upper thoracic and cervical spine.

INGREDIENTS: Each capsule contains Calcium citrate, Fenugreek seed, Kelp, Magnesium amino acid chelate, Irish Moss, Cellulase, Amylase, Protease, and Lipase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

T1 to T12 Rbs Pleura/Diaphragm Support Formula

PLEURA-DIAPHRAGM SUPPORT FORMULA is a unique blend of vitamins, herbs, and minerals with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish tissues of the pleura and diaphragm stressed by subluxations of the thoracic spine.

INGREDIENTS: Each capsule contains Wheat Germ, Lecithin, Globe Artichoke extract, Chamomile flowers, Lipase, SeaSel Kelp, Amylase, Protease, and Cellulase.

DIRECTIONS: Two capsules after or between meals, or as condition suggests.
Available in 90 and 180 capsules.

T1 to T6 Circ Circulatory Support Formula

CIRCULATORY SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish tissues of the circulatory system stressed by subluxations of the upper and mid-thoracic spine.

INGREDIENTS: Each capsule contains Hawthorne berries, Motherwort, Collinsonia root, Protease, Lipase, Rosemary leaf, White Willow bark, Amylase, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

T1 to T7 Rsp Respiratory Support Formula

RESPIRATORY SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish tissues of the respiratory system stressed by subluxations of the upper and mid-thoracic spine.

INGREDIENTS: Each capsule contains Pleurisy root, Mullein leaf, Wild Cherry bark, Sarsaparilla root, Amylase, Horehound herb, Lipase, Protease, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

T4 to T8 Bil Biliary Support Formula

BILIARY SUPPORT FORMULA is a unique blend of herbs and vitamins with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the biliary system stressed by subluxations of the mid-thoracic spine.

INGREDIENTS: Each capsule contains Protease, Fennel seed, Lipase, Carbohydrase, Turmeric root, Amylase, Lecithin, Cinnamon bark, Ginger root, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

T5 to T9 Pan Pancreas/Jejunal Support Formula

PANCREAS-JEJUNAL SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the pancreas and jejunum stressed by subluxations of the middle and lower thoracic spine.

INGREDIENTS: Each capsule contains Carbohydrase, Amylase, Protease, Blessed Thistle, Lemon grass, Lipase, Thyme, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

ORDER 1-800-614-4400

T5 to T9 Stm Stomach Support Formula

STOMACH SUPPORT FORMULA is a unique blend of herbs and vitamins with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the stomach stressed by subluxations of the mid-thoracic spine.

INGREDIENTS: Each capsule contains Papaya leaf, Marshmallow root, Slippery Elm bark, Aloe vera, Catalase, Stomach Intrinsic factor, Lipase, Amylase, and Cellulase, Vitamin B-12, and Folic acid.

DIRECTIONS: Two capsules after meals, four capsules between meals, or as condition suggests. Available in 90 and 180 capsules.

T9 to T10 Adr Adrenal Support Formula

ADRENAL SUPPORT FORMULA is a unique blend of vitamins and herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the adrenal gland stressed by subluxations of the lower thoracic spine.

INGREDIENTS: Each capsule contains Brewers yeast, Siberian ginseng root, Gotu kola herb, Carbohydrazase, Amylase, Protease, Rose Hips, Ginkgo biloba, Lipase, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests. Available in 90 and 180 capsules.

T8 to T10 Lvr Liver Support Formula

LIVER SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the liver stressed by subluxations of the middle and lower thoracic spine.

INGREDIENTS: Each capsule contains Safflower petals, Barberry root, Beet root, Amylase, Lipase, Catalase, Milk Thistle extract, Gentian root, Protease, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests. Available in 90 and 180 capsules.

T6 to T8 Spl Spleen Support Formula

SPLEEN SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the spleen stressed by subluxations of the mid-thoracic spine.

INGREDIENTS: Each capsule contains Pau D'Arco inner bark, Yellow dock root, Echinacea purpurea root, Astragalus, Mullein leaf, Protease, Amylase, Lipase, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests. Available in 90 and 180 capsules.

T9 to L1 Sml Small Intestine Support Formula

SMALL INTESTINE SUPPORT FORMULA is a unique blend of cultures with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the small intestines stressed by subluxations of the lower thoracic and lumbar spine.

INGREDIENTS: Each level tablespoon provides highly concentrated Cellulase, Carbohydrase, Lactobacillus casei, Lactobacillus acidophilus, Bacillus subtilis, Bifidobacterium longum, and Lactobacillus salivarius.

DIRECTIONS: One level tablespoon between meals, or as condition suggests. Available in 2 oz. (60 gr.) bottle.

CHALLENGE FOOD POWDER FORMULA

CHALLENGE FOOD POWDER FORMULA is a unique blend of herbs with an appropriate ratio of protein, carbohydrate, lipids, and fiber.

PURPOSE: Formulated as a food supplement to provide a balanced ratio of protein, carbohydrate, fat, and fiber.

DIRECTIONS: One tablespoon mixed in water or juice between meals or as condition suggests. Available in 8 oz. (227 gr.) bottle.

ORDER 1-800-614-4400

T10 to T11 Kdly Kidney Support Formula

KIDNEY SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the kidneys stressed by subluxations of the lower thoracic spine.

INGREDIENTS: Each capsule contains Alfalfa juice concentrate, Rose Hips, Echinacea purpurea root, Mullein leaf, Ginger root, Lipase, Protease, and Cellulase.

DIRECTIONS: Two capsules after or between meals, or as condition suggests.
Available in 90 and 180 capsules.

T12 to L2 UrT Urinary Tract Support Formula

URINARY TRACT SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the urinary tract stressed by subluxations of the lower thoracic and lumbar spine.

INGREDIENTS: Each capsule contains Alfalfa juice concentrate, Buchu leaf, Horsetail rush, Cranberry, Protease, Amylase, Hydrangea, Meadowsweet, Lipase, Uva Ursi, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

T10 to T11 Mal Male Gland Support Formula

MALE GLAND SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the male organs stressed by subluxations of the lower thoracic and lumbar spine.

INGREDIENTS: Each capsule contains Saw Palmetto fruit, Yucca root, Alfalfa juice concentrate, Safflower petals, Parsley leaf, Protease, Amylase, Lipase, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

T10 to L1 Fem Female Gland Support Formula

FEMALE GLAND SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the female organs stressed by subluxations of the lower thoracic and lumbar spine.

INGREDIENTS: Each capsule contains Dong Quai, Wild yam, Yucca root, Vitex agnus-castus fruit, Raspberry leaf, Protease, Amylase, Lipase, and Cellulase.

DIRECTIONS: Two capsules after or between meals, or as condition suggests.
Available in 90 and 180 capsules.

L1 to L3 Lgl Large Intestine Support Formula

LARGE INTESTINE SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the large intestine stressed by subluxations of the lumbar spine.

INGREDIENTS: Each capsule contains Butternut bark, Cascara sagrada bark, Dandelion root & herb, Gentian root, Ginger root, Protease, Amylase, Lipase, Cellulose.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

L1 to L3 IrB Irritable Bowel Support Formula

IRRITABLE BOWEL SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the bowel stressed by subluxations of the lumbar spine.

INGREDIENTS: Each capsule contains Blackberry leaf & root bark, Marshmallow root, Mullein leaf, Nettle leaf, Amylase, Plantain leaf, Psyllium seed husk, Cellulase, Lipase, Carbohydrase, and Protease.

DIRECTIONS: Two capsules after or between meals, or as condition suggests.
Available in 90 and 180 capsules.

ORDER 1-800-614-4400

S2 to S4 Para Sympathetic Support Formula

SYMPATHETIC SUPPORT FORMULA is a unique blend of minerals and herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to nourish the tissues of the sympathetic system stressed by subluxations of the lumbo-sacral.

INGREDIENTS: Each capsule contains Calcium Lactate, Fenugreek seed, Horsetail rush, Shitake Mushroom, Protease, Amylase, Lipase, and Cellulase.

DIRECTIONS: Two capsules after meals, between meals, or as condition suggests.
Available in 90 and 180 capsules.

CLM Nervous System Support Formula

NERVOUS SYSTEM SUPPORT FORMULA is a unique blend of herbs with highly concentrated plant enzymes.

PURPOSE: Formulated to give relief to tissues or organs stressed by nervous and/or emotional tension.
